 Portfolio

Profile

Technical Support and Software Engineering professional experienced in troubleshooting, issue resolution, application support, and technical communication. Skilled in Java, SQL, Oracle DB, Spring Boot, REST APIs, React.js, JavaScript, MySQL, and MongoDB. Strong in technical problem-solving, user support, and cross-functional collaboration.

Technical Skills

Technical Support

Issue triage, technical troubleshooting, root-cause analysis, issue resolution, product/application support, feature & functionality support, user assistance

Application & API Support:

REST APIs, Postman, API testing, integration troubleshooting, application functionality, database interaction

Programming & Web

Java, Spring Boot, React.js, React Native, JavaScript, HTML, CSS

Testing

Manual testing, functional testing, test case design, API testing

Technical Skills

Java, SQL, Oracle DB, Spring Boot, REST APIs, React.js, JavaScript, HTML, CSS, MySQL, MongoDB

Databases

SQL, MySQL, Oracle DB, MongoDB, database troubleshooting and optimization

Tools & Platforms:

Git, Postman, VS Code, Android Studio, Render

Professional Experience

04/2026
Bangalore, India

24/7.ai - Bangalore, India

Technical Support Advisor

- Provide technical assistance by understanding user requirements, issues, features, compatibility, and usage.
- Troubleshoot product and application queries and guide users through effective resolutions.
- Analyze user requirements and recommend suitable technical solutions.
- Explain technical specifications, features, and solutions clearly to technical and non-technical users.
- Handle issues, identify root causes, and provide timely resolutions.
- Support users throughout the issue-resolution process from identification to follow-up.
- Work in a high-volume support environment while maintaining quality and accuracy.

04/2025 – 01/2026
Bangalore

Zen4Tech Technologies

Associate Software Engineer

- Developed and maintained scalable web and mobile applications serving 1,000+ users using React.js, React Native, Java, Spring Boot, and MongoDB.
- Built and integrated secure RESTful APIs, ensuring high-performance backend services and efficient database interactions.
- Collaborated with cross-functional teams in Agile/Scrum environments, actively participating in sprint planning, code reviews, and technical discussions.
- Contributed to Android and iOS mobile application development, enabling seamless REST API integration and cross-platform functionality.
- Applied clean code principles, performance optimization techniques, and secure coding practices to enhance application reliability and maintainability.

06/2024 – 02/2025
Bangalore, India

Wenkraft Technologies

Full Stack AI Data Trainer

- Trained AI models by designing and implementing efficient data workflows and pipelines.
- Ensured data accuracy, validation, and optimization to improve model performance.
- Collaborated with technical teams to support AI-driven application development.

08/2023 – 02/2024
Bangalore, India

Kodnest Technologies

Software Development Intern

- Gained hands-on experience in Java, Full Stack Development, and SQL.
- Contributed to real-world projects, focusing on backend logic and database optimization.
- Participated in team discussions to improve development efficiency and application performance.

Projects

Apna Poster

Digital Poster E-Commerce Platform

- Developed an e-commerce platform with product browsing, authentication, database management, and online payments.
- Gained experience understanding digital product workflows and customer-facing functionality.

Stump Talk

Fantasy Sports Mobile Application

- Built a mobile application with REST APIs, authentication, wallet management, and MongoDB.
- Worked on user-focused features and application functionality.

Sales Analytics Dashboard

Practice Project

- Created an interactive Power BI dashboard using sales dataset.
- Performed data cleaning and transformation in Excel.
- Built KPIs, charts, and filters using DAX basics. **Tech:** Power BI, Microsoft Excel

Education

Bachelor of Engineering (B.E / B.Tech) – Computer Science

Malnad College of Engineering, India

Certificates

- Ethical Hacking Essentials
- ISO 22301, ISO 27001, ISO 20000 Lead Auditor Certifications
- Java Full Stack Development and Testing
